

STATEMENT – EROSION CONTROL

The escape of sediment from the site shall be prevented by the installation of erosion control measures and practices prior to or concurrent with land disturbing activities.

Erosion control measures will be maintained at all times. If full implementation of the plan does not provide for effective erosion control, additional means of sediment control measures shall be implemented to treat the sediment source.

STATEMENT – STATE WATERS

The site is / is not (**circle one**) within 200 feet of State Waters. I understand that State Waters are defined as any of the following: lakes, streams, dry beds, ditches or swales that convey water across property lines. The ditch, swale or dry bed does not have to contain water at the time of permitting.
